Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Schnedler on July 12, 2004.

The application has been amended as follows:

Claim 2 has been canceled.

In claim 1 (patent claim 1),

line 9: "opening" has been changed to --opening and a locating boss projecting from said arcuate surface and sized so as to fit within the overflow opening--.

In claim 9 (patent claim 8),

line 9: "opening, and which" has been changed to --opening and a locating boss projecting from said arcuate surface and sized so as to fit within the overflow opening, said stopper--.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance: none of the prior art of record alone or in combination teaches a device as claimed having a stopper as claimed comprises an arcuate surface and a locating boss projection from the arcuate surface and sized to fit within an overflow opening of an overflow drain of a bathtub so as to block or impede the flow of water therethrough.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bromley discloses an automatic shut-off ball valve, which lacks the claimed structures and functions. Holmes discloses a stopper but lacks the claimed structures and functions.
